Campaign settings

To reach the right people, start by defining key settings for your campaign

Networks

☒ Google search partners network (recommended)

Ads can appear near Google search results and on other [Google search partners](#) websites when people search for terms that are relevant to your keywords. Search partners can include hundreds of non-Google websites, parked domains, as well as YouTube and other Google Sites.

☒ Google Display Network (recommended)

Ads can appear on relevant sites, videos, and apps across Google (like YouTube) and the Internet when you have leftover Search budget

Engage more customers and boost performance. Easily expand your keywords with broad match technology and let Google AI match content from your data feed, landing pages and assets to help you show up on more relevant searches. New ad group settings help you guide which customers you reach.

Tailor your ads and keep them fresh by using a data feed. You choose which items from your feed that you'd like to show ads for and use to reach additional users. Use Google AI to serve the most relevant ad content and landing pages to each customer based on their unique interest and intent.

Take charge and understand how the newest and best Google AI is working for you. You'll get new actionable insights in search term reports that show how AI Max improves performance.

Google AI will use your URL and the information that you provide to create assets, like keywords, headlines and descriptions for you to review. Generated content may be inaccurate or offensive, so please review and check the responses. To improve Google AI, human reviewers may read, annotate and process the information that you provide. Don't enter anything that you wouldn't want reviewed or used.

Your use is subject to Google's [Terms of Service](#) and [Generative AI Prohibited Use Policy](#). Your data is handled as explained in the Google [Privacy Policy](#).

What is the URL of the products or service that you want to advertise?

Google Ads will suggest a campaign structure based on your URL.
